APPROVAL OF UNDP ASSISTANCE TO A PROJECT OF MOZAMBIQUE

IPF:(1992-96) $92 969 000
(MOZ/90/001) - Support to Malaria Control Programme

INDIANA UNIVERSITY

Date of approval by the AC:[1]	7 November 1990
Expected duration:	Three years
Proposed executing agency:	Government
Government implementing agency:	Ministry of Health
Proposed UNDP contribution:	$638 000 Source of funds: IPF
Total UNDP budget:	$638 000

Project background

The Government of Mozambique has launched a national programme to control malaria which aims at reducing malaria mortality and incident of severe disease mainly through improvements in diagnosis, treatment and prophasis in the national health service, as well as improved access to treatment for populations living in peripherical areas. To this end, it has requested UNDP assistance under the present approval.

Description of project

The long-term objective of the project is to complement the Ministry of Health's programme which is supported by UNICEF as regards supplies, logistics and transport. The immediate objectives of the project are to: (a) make improvements in the diagnosis and treatment of malaria; and (b) provide better access to treatment.

Inputs

UNDP will provide funding for a clinical malariologist, a vector control malariologist, an entomologist, a parasitological laboratory technician, a general malariologist, an entomologist; administrative support; office equipment; and
